# About Me

Zair Abbas

UI / UX / Web Designer / Web Developer

Hello, I'm 29 years old and I live in Karachi, Pakistan.

I'm an UX Rockstar with 10+ years of extensive and diverse experience in a number of commercial projects. Solid understanding of web standards, usability and aesthetics, together with my sound knowledge on UX development, I have developed many Wordpress CMS driven websites, mobile responsive sites, portals and applications.

My skills are not limited to web design, I make youtube videos, do photography, play music, try to write blog, do tweet to get free invites and giveaways, hangout with facebook friends, eat (not so healthy) fast-food, sleeps and wakes up on computer and I'm married to a PHP Developer.

I'm a purely **self taught individual** as far as all my **skills/knowledge** goes.

I currently work as **Manager Web Development** at **Creative Chaos**.
